

EX-IMPORT
PTY LTD

Product name: Elleebana Stronghold Lash Lift Adhesive
Squeeze Tube

Manufacturer: Ex-Import Pty Ltd
This revision issued: March 15th 2024
Page 1 of 3

Section 1: Identification of Chemical, Product and Company

Address: Unit 5/92 Township Drive, Burleigh Heads, Queensland, 4220 AUSTRALIA
Telephone: +61 7 5576 6388
Web/E-mail: www.elleebana.com or info@elleebana.com
Substance: Emulsifying Wax Adhesive
Trade name: Elleebana Lash Lift Adhesive – Stronghold Squeeze Tube
Product Use: Adhesive used when lifting lashes during the treatment
Creation Date: March 2024
Revision Date: March 2028

Section 2: Composition, Information on Ingredients

Pure Substance:

Ingredients I.N.C.I

I.N.C.I.	CAS Number:
Aqua (water)	7732-18-5
Butyl Acrylate	141-32-3
Dextrin	9004-53-9
Propylene Glycol	57-55-6
Keratin	68238-35-7
Biotin	58-85-5

Mixture:

Chemical Properties: Emulsifying Wax
Name of Hazard Substance: None
Concentrations (Percentage): None
Hazard Class and Label: None

Section 3: Potential Health Effects

Physical Description and Colour: Clear Gel

Odour: Slight

Major Health Hazards: No significant risk factors have been found for this product.

Potential Health Effects

Inhalation: Avoid overexposure to vapours – vapor can cause headache, nausea and irritation of the nose, throat and lungs

Skin Contact: Slightly irritating to the skin

Eye Contact: Contact with vapor or liquid may irritate the eye

Ingestion: May cause pain, nausea and vomiting

Hazardous ingredients: This product does not contain substances to be mentioned according to EU Regulation No. 1907-2006 (Reach), annex II.

Section 4: First Aid Measures

General Information:

Call the Poisons Information Centre immediately if you feel that you may have been poisoned, burned or irritated by this product. The number is 13 1126 from anywhere in Australia (0800 764 766 in New Zealand) and is always available. Please have this Material Safety Data Sheet on hand when you call.

Inhalation: Give artificial respiration if improper inhalation leads to difficulties of breathing. Seek medical attention immediately if providing oxygen does not improve breathing difficulties.

Skin Contact: Remove contaminated clothing and wipe off excess from skin. Wash exposed area with soap and water. If redness, itching or a burning sensation develops, seek medical advice.

Eye Contact: Immediately flush eyes with running water for at least 15 minutes. If redness, itching or a burning sensation develops, see a physician.

Ingestion: Seek medical attention immediately.

Section 5: Fire Fighting Measures

Appropriate type of extinguisher: Water spray, foam, CO₂, or dry powder is recommended for dried residue.

Firefighting instructions: Do not enter any enclosed or confined fire space without full protective equipment, including self-contained breathing apparatus to protect against the hazardous effects of products and oxygen deficiency.

Section 6: Accidental Release Measures

Procedures for Spill/Leak Clean-up: Absorb small quantities on inert absorbent (e.g. sand) and scoop into settle container. Flush larger spills with water into retaining area or container. Disposal in accordance with local regulations for chemical waste.

Section 7: Handling and Storage

Handling: Provide adequate ventilation in storage area. Keep away from sources of ignition. Do not smoke; keep away from heat, spark, flame and contamination. Keeping products away from eyes face and skin, keep container closed when not in use. Avoid contact with eyes and skin. Wash thoroughly after handling.

Dangerous Decomposition Products: Thermal decomposition may produce carbon monoxide, acrid fumes and nitrogen oxides

Dangerous Polymerization Reaction: Will not occur

Protection Measurement:

Respiratory – Ensure adequate ventilation if spraying

Eye Protection – Wear safety glasses

Skin Protection – Wear neoprene gloves

Storage: Keep product tightly closed away from heat and direct sunlight. Avoid extreme temperatures. Store away from food and beverages.

Section 8: Exposure Controls and Personal Protection

Engineering Control: Provide adequate ventilation

Control Index: Local exhaust is not required.

Personal Protective Equipment:

Hands: Water liquid proof rubber gloves. Thoroughly rinse the outside of the gloves with water prior to removal. Inspect regularly for leaks.

Eyes: Safety glasses. Water approved safety glasses with side shields.

Skin & Body: Wear chemical splash-type mono goggles (apron) if splashing is expected.

Hygiene Measures: Always handle and apply in a careful manner. Do not share with others, do not add anything to the product, cap tightly after use to prevent moisture-entering product and maximise product self-life. If changes in product occur, discontinue use.

Section 9: Physical and Chemical Properties

Physical Description & colour:	Liquid/gel frosted clear
Boiling Point:	100oC
Flash Point:	>87 oC
Viscosity:	3500-750 mPa.s
Total solid:	55
Water Solubility:	Soluble
pH:	7.0

Section 10: Stability and Reactivity

Stability: This product is stable compound under recommended storage conditions; Excessive heat could cause product changes and cannot be used.

Potential Hazards under special conditions: Hazardous polymerization will not occur.

Conditions to avoid: Avoid heat, dirt, organics and combustibles.

Incompatibilities with other materials: Avoid heating, open flames, ignition sources and electrostatic charge.

Minimum durability before opening: 24 months

Minimum durability after opening: 3 months

Section 11: Toxicological Information

Oral Toxicity (LD 50): N/A

Skin Irritation: Unlikely to cause skin irritation during short term exposure

Eye Irritation: Unlikely to cause irritation during short term exposure

Section 12: Ecological Information

Toxicity: No data available

Persistence and degradability: No data available

Bio accumulative potential: No data available

Mobility in soil: No data available

Results of PBT and vPvB assessment: No data available

Other adverse effect: No data available

Other information: Do not discharge product unmonitored into the environment

Section 13: Spillage and Disposal Considerations

Disposal of unused product or contaminated product and materials used in cleaning up spills or leaks in a manner approved for this material. Consult appropriate federal, state and local regulatory agencies to ascertain disposal procedures.

Section 14: Transport Information

ADG Code Classification: Not classified as a hazardous material or as a Dangerous good. No special transport conditions are necessary unless required by other regulations

Finished packaged product transported by ground (DOT): Non-hazardous

Finished packaged product transported by vessel (IMDG): Non-hazardous

Finished packaged product transported by air (IATA): Non-hazardous

Special Handling Procedures and Precautions: Keep away from heat

Section 15: Regulatory Information

AICS: All of the significant ingredients in this formulation are compliant with NICNAS regulations.

Section 16: Other Information

This MSDS contains only safety-related information. For other data see product literature.
